

South Campus Quarter

Utility Information

Tenants must set up required utilities in their name starting **on or before** their move-in date. **Once you have signed up for the required utilities, email proof of sign-up to the South Campus Quarter office at office@southcampusquarter.com. No keys will be issued without proof of utility sign-up.** Upon the end of your lease, tenants are responsible for disconnecting service **after** vacating the property.

Schedule your utility turn-on a minimum of 2-3 weeks in advance to ensure your service will be ready at move-in time. To avoid a delay in getting internet/cable service, schedule this as well.

ATTENTION RESIDENTS OF NEWLY RENOVATED UNITS (540 S Campus Ave Apt 1-12 Only):

Spectrum Service: Because these units are currently being renovated, you MUST contact your cable/internet provider three weeks ahead of move-in to set up your service. The installation requires a service technician to come to the property; it cannot be completed solely through the mail. Failure to contact Spectrum ahead of time may result in an extended delay in receiving service, possibly even weeks after you move-in.

Duke Energy Service: Because these units are currently being renovated, please contact Duke Energy no earlier than one week before your move-in. If Duke is unable to set up your service please contact the office.
